

RAYMA C. PAGE ELEMENTARY

Susan L. Caputo
Principal

Denise K. Boring
Assistant Principal

To Whom It May Concern,

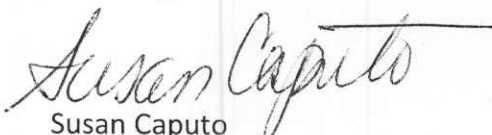

Master Guak has been teaching Martial Arts at Rayma C. Page Elementary for the past two years. He is a very professional, positive and skilled teacher who has a passion for teaching children about their character development and physical fitness. He teaches important values in a positive and confident way that the children respond too. We have been so blessed to have Master Guak as a part of our school. Our children are gaining a deeper understanding of discipline. I have noticed a difference in our students after going through Master Guak's program. They practice staying focused, displaying self-control and showing respect for others. It is life-changing when the students make the correlation between increased discipline and success.

Master Guak also instills a level of confidence in the children which spills over into all areas of growth and learning. When the children are asked to speak, they are expected to speak loud and clear, standing tall and proud. They are praised for their accomplishments and encouraged to do their best. The congratulation ceremony is phenomenal. All students show their parents what they have learned and they get to break a board. What a confidence booster! Many students tell me they still have their broken board from last year. They keep it to remind them they can do anything that they set their mind to.

Our Physical Education teacher has learned so much working with Master Guak. She has implemented many of his techniques and expectations into her Physical Education program.

I recommend Master Guak to teach at every school in Lee County. He has made such a difference in the lives of our children.

Sincerely,

Susan Caputo
Principal
